MAYBANK CAMBODIA AND SUNWAY MEDICAL CENTRE, SUNWAY CITY, EXPAND CUSTOMER PRIVILEGES WITH COMPLIMENTARY HEALTH SCREENINGS IN MALAYSIA

The collaboration offers eligible customers exclusive healthcare, travel and lifestyle privileges in Malaysia, now further enhanced through a complimentary health screening campaign.

Phnom Penh, Cambodia, 17 July 2026 – Maybank (Cambodia) Plc. and Sunway Medical Centre, Sunway City Kuala Lumpur (SMC) have formally commemorated a strategic collaboration to provide Cambodians with greater access to exclusive healthcare, travel and lifestyle privileges in Malaysia.

The formalisation reflects an established collaboration between the two organisations, bringing together Maybank's strong ASEAN network and regional customer ecosystem with SMC's healthcare expertise and integrated patient-care services.

A key highlight of the event is the ongoing "Beyond Wealth, Into Wellbeing" campaign, where eligible cardholders can enjoy complimentary health screening packages at SMC.

In addition to the complimentary health screening, eligible Maybank cardholders can also enjoy exclusive healthcare privileges at SMC, including 20% off selected health screening packages.

The wider initiative also includes dedicated travel, hospitality and patient-support privileges, such as a complimentary one-night stay, complimentary two-way airport transfers, translator assistance, special room rates for medical tourists at Sunway Healthcare Group's senior living residence, Sunway Sanctuary, and other services designed to provide greater comfort and convenience for customers travelling to Malaysia for healthcare and wellness services.

These healthcare benefits are further complemented by Maybank Cambodia's broader regional card travel and lifestyle privileges, including up to 15% off flight fares with Malaysia Airlines.

Together, these privileges create a more complete cross-border healthcare journey, covering travel arrangements, healthcare and health screening services, accommodation and patient support.

Mr. Rath Sophoan, Chief Executive Officer and Country Head of Maybank Cambodia, said the collaboration reflects Maybank's commitment to supporting customers' financial and lifestyle needs.

"Banking today is shaped by the access and value we are able to create for our customers, beyond financial products. This collaboration with Sunway Medical Centre connects our Cambodian customers to trusted healthcare, travel and lifestyle privileges beyond borders – a reflection of Maybank's aspiration to deliver more meaningful experiences for our customers across ASEAN. Through campaigns like 'Beyond Wealth, Into Wellbeing', we are strengthening our Premier Lifestyle Banking proposition while supporting customers' financial and personal wellbeing."

Dr. Khoo Chow Huat, Managing Director (Hospital and Healthcare Operation) of Sunway Healthcare Group, said the collaboration would provide a more connected and reassuring healthcare journey for Cambodians seeking trusted medical services in Malaysia.

"A healthcare journey should begin with confidence – confidence in the medical expertise, the care environment and the support provided to patients and their families throughout the experience. Both Maybank Cambodia and Sunway Medical Centre are making that journey more accessible and better supported for Cambodians seeking health screenings, wellness and medical services in Malaysia."

He added:

"Sunway Medical Centre brings together medical excellence, hospitality and patient-focused support within an integrated healthcare ecosystem. Together with Maybank Cambodia, we are creating a pathway that goes beyond treatment—one that offers comfort, convenience and assurance from travel through to care."

The collaboration marks a milestone for Maybank Cambodia and SMC in establishing a broader platform for healthcare engagement, value-added customer privileges and future lifestyle initiatives, laying the groundwork for closer collaboration between Cambodia and Malaysia.
